

SISTER SUES TO RECOVER FOR HER BROTHER'S DEATH

Miss Mary Comer Asks Damages of Central Railroad for Benefit of Parents.

Suit for \$5,000 damages has been entered and will probably be tried in the Circuit Court this week by Miss Mary E. Comer, administratrix of Fergus Comer, the young man who was killed by an east-bound Central Railroad train at Ferry street station on August 12 last. The administratrix appears for the father and mother, who live in Ireland.

Young Comer was born in Ireland and came to this country in 1906, and immediately went to work for M. P. Smyth & Co., in Passaic avenue. On the day he was killed Comer was sent on business to New York by his firm, and it was while crossing the tracks to the station, after alighting from the Jersey City train, that he was struck by another going in the opposite direction. On November 8 last his sister Mary, through Mulligan & Koenig, who are also the attorneys in the present suit, took out letters of administration by consent of the young man's parents. It is claimed the young man was in the habit of sending a part of his earnings back to the old country, and that his death necessarily robbed the father and mother of the support they were receiving. Besides the father and mother and his sister Mary, Comer had one sister and five brothers in Ireland, and one other unmarried sister in this country.

LECTURES IN SCHOOLS BEGIN AUSPICIOUSLY.

The second of the children's course of illustrated lectures in elementary science were given in the various public school centres yesterday afternoon. The third course will be given this afternoon.

The following lectures were delivered yesterday: Franklin School, "The Earth and Low Tide," by John J. Schoenhoven, head of the department of microscopy, Brooklyn Institute of Arts and Sciences, for grades 6B and 6A; Belmont Avenue, "Every Day Science," by William Wiener, for grades 6B, 6A, 7B, 7A; South Tenth Street, "Familiar Families in Trees," by Dr. Grace G. Cooley, of Barringer High School, for grades 5A and 5B; Central Avenue, "Birds of New Jersey," by Clinton G. Abbott, lecturer in New York's public lecture courses, for grades 4B and 4A. This afternoon the following lectures will be delivered: "Wireless Telegraphy," by Dr. John F. Woodhull, head of the department of physical science, Teachers' College, Columbia University, for grades 8B and 8A; Hamburg Place, "Familiar Families in Trees," by Dr. Grace G. Cooley, for grades 5B and 5A; Belmont Avenue, "How Animals Live and Behave," by Dr. H. H. Rusby, for grades 4B and 4A.

The Ladies' Auxiliary of the P. J. Gunningham Ham Association held its weekly meeting at 131 West Street last night and completed arrangements for its theatre party at the Newark tomorrow night. Following the performance the party will have a supper at the Hotel Broad, where covers will be laid for those in charge of the affair. Mrs. Henry Myers, Mrs. Patrick J. Gunningham, Mrs. J. Bulger, Mrs. Charles Rubach, Mrs. Jacob Stah, Mrs. George Eubach, Mrs. Alice Jones, Mrs. Hugh Brady.

OUR CHILDREN'S CORNER

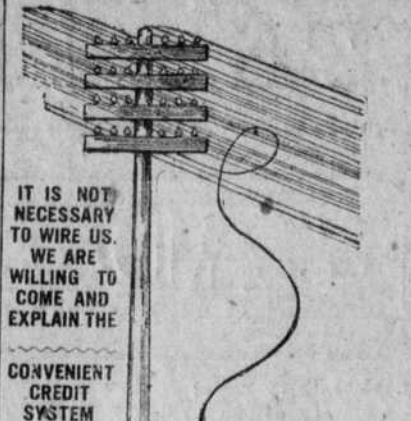

GAME OF QUOITS.

QUOITS, with a greater antiquity and merits of play, appeals more to men, and men who are not averse to stronger exercise than that which bowls give. It is a game which has this advantage—quoits do not so much space as bowls do. In fact, a single quoit alley can be put into any unconsidered slip of lawn; one alley needs only to be some twenty yards long and a few feet wide, though two or three continuous alleys increase the interest of the game and its sociability. At each end of the alley a small excavation is made in the soil and filled with clay. Everything is then ready for the players. Each player selects two quots of weight suitable to his grasp and strength, and one player tosses the mark at one end of the alley, aiming his quoit and pitching it with an upward and forward movement so that it will fall on a mark on the clay at the other end and stick in there, or as near to it as possible. Then the opposing player casts his quoit, with it like intent, and so on until the two or four players have pitched each their two. The points are made by the side which has the quots nearest the mark. It is a splendid exercise for developing the eye, the arm and the chest; indeed, no muscle, from the toes upward, escapes paying toll in an hour at quoits, yet the player has the amount of his toll entirely within his own control, and he cannot be harried by his opponent.

A LOCK OF NAPOLEON'S HAIR.
An interesting relic of Napoleon Bonaparte has been placed in the Nottingham Castle Museum. It consists of a lock of hair of the Emperor, which was cut off about an hour after his death. It was given to Naval Surgeon Dickson, who was on board a battleship on guard at St. Helena at the time of Napoleon's death.

UNCLE JACK'S PUZZLES—No. 373.

WHAT IS WRONG WITH THIS PICTURE?

HERE is a scene in a school-room. The teacher is pointing out something on globe, showing the Western Hemisphere. There is something wrong with this map, however. Can you tell what it is? After you have found the answer, fill out the coupon and send it to Uncle Jack, Evening STAR, Newark, N. J.

The two girls and two boys who send in the nearest correct answers can have their choice of a box of paints, a good book, a penknife or any one of several very fascinating games. If the writing is not legible the coupon will be rejected. Uncle Jack will publish the picture of any prize-winner who cares to send him a photograph. Ping-pong and d-type pictures cannot be used. Only children under 15 years of age are eligible to compete. Be sure to place a two-cent stamp on the envelope, to avoid delay at the postoffice. The names of the prize-winners will be announced in the Evening STAR on Thursday, April 29.
